

 SPACES

BROCHURE | VOL.1

“We believe in being the right choice for making your space as perfect as you dream ”

About Us

At SPACES we strive to become one of the nation's leading companies for architectural spaces solutions by following a fairly simple philosophy "offer a product of outstanding quality with equally outstanding values" The simplicity of that principle is backed up by a lot of hard work and years of experience. We care about environment, space comfort and the quality of life.

SPACES is a merge of the stories we have lived, the values we believe, and the accumulation of skills and experience over time.

Vision

Our vision is to build lasting and positive relations with our business and social environment. Act in line with international standards of corporate responsibility and business ethics.

Mission

Our mission is to provide comprehensive spaces solutions to meet the needs of our customers. Our offer for customers is comprehensive. However, we offer all the products one needs to fit out a space.

Complete Project Services

Delivering high quality products is not the ultimate we can do for you. We offer professional project management and can support projects at every stage. We are able to run bespoke projects and optimize our customers' costs by smart planning as well as taking a holistic approach to each project.

1. Design & Styling

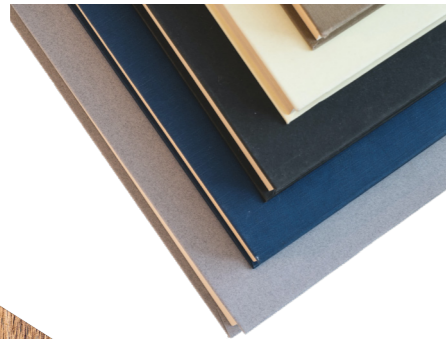

The link between SPACES and design is so strong that it's difficult to imagine one without the other. We are a team of designers, technicians and project managers. It is our job to translate the idea into a production ready design and then manage the project through to a successful handover.

With experience working on contracts of all sizes and budget, we bridge the gap between design and manufacture. We have experience in contract trade projects. Our dedicated team of designers, project managers and highly experienced makers ensure that your project is handled professionally from concept right through to final install.

2. Engineering & Drawings Production

After a concept and interior designs are ready, SPACES engineering team prepares plans and isometric projections for spaces. With the photo-realistic visualizations of proposed solutions the design concept takes shape, making it much easier to choose the best arrangement.

3. Production, Delivery & Installation

The selection and purchase of furniture is only a small part of the process of changing interior design or moving into a new space. Our comprehensive support includes transportation and installation of the ordered furniture and assistance in moving, if required.

4. After Sale Maintenance Services

We know that cooperation with the customer does not end with the delivery of the ordered products. Our long-term warranty, technical inspections and service support are an important part of our offer. We believe that only long-term support, including after-sales assistance, guarantees our company a true success in the market.

Spaces Solutions

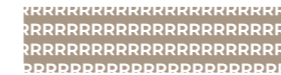

Interior decor projects can be admired anywhere in the world and in many sectors. SPACES is committed to the Contract trade, taking care of the job at every stage and acting as a single referent ready and waiting to solve problems, provide solutions, and coordinate jobs. In this way, whether we are dealing with Home, Hospitality, Commercial, and Corporate spaces there is no difference in the way a project is set up. It is always a customized job that must communicate a style, values and last but not least, excite.
